Hao Xu (徐浩)
Curriculum Vitae / Nov, 2022

Email: hao.xu.etu@univ-lille.fr   Web: https://haoxsia.github.io/

Phone: +33 766-345-876

Citizenship: China

POSITIONS

D.Phil. cand. researcher, Nanoelectromechanics, *IEMN-CNRS*, France	2020 –
R.A., Physical optics, *Tsinghua University TBSI*, Shenzhen, China	09/2020

EDUCATION

D.Phil. candidate in Microsystems sensors, *University of Lille 1*, France	2020 –
Visiting grad student, *University of California*, San Diego, USA	03/2017
M.Eng. in Electronics, *Xi'an Jiaotong University*, Xi'an, China	06/2018
B.Sc. in Optics, *Harbin University of Sci and Tech*, China	06/2014

RESEARCH INTERESTS

I have broad interests in nanoelectromechanics (NEMS), including

- Advanced manufacturing (nano-scale device model, design etc)

- NEMS physical theory modelling (numerical simulation analysis)

- RF device verification and measurements (Zurich instruments etc)

AWARDS & HONORS

Academic Scholarship (every year), Xi'an Jiaotong University	2015 – 2018
Excellent graduate student, Xi'an Jiaotong University	2016
Third-class Prize of National Undergrad Mathematics Contest, China	2013

CONFERENCES & TALKS

LIMMS-IEMN workshop on NEMS/MEMS (virtual meeting)	12/2022
Technologies for Neuroengineering (virtual Nature conferences)	10/2022
Poster, Nanomechanics seminar at University of Bordeaux, France	10/2022
Microsystems group meeting at IEMN-CNRS, Lille-Paris, France	02/2021
Optics group meeting at Tsinghua University TBSI, Shenzhen, China	2018 – 2020
Molecular imaging group meeting at Peking University, Beijing, China	05/2018
Biomechanics group meeting at Xi'an Jiaotong University, Xi'an, China	04/2017
Class presentation at University of California, San Diego, USA	02/2017
Electronics group meeting at Xi'an Jiaotong University, Xi'an, China	2016 – 2018

PUBLICATIONS

Capacitively coupled distinct mechanical resonators for room temperature phonon-cavity electromechanics
Pokharel, A., **Xu, H.**, Venkatachalam, S., et al.
2022, *Nano Letters*, 22 (18), 7351-7357.

Magnetically tunable and stable deep-ultraviolet birefringent optics using two-dimensional hexagonal boron nitride
Xu, H., Ding, B., Xu, Y., Huang, Z., et al.
2022, *Nature Nanotechnology*, 17, 1091-1096.

A 2D material-based transparent hydrogel with engineerable interference colours
Ding, B., Zeng, P., Huang, Z., Dai, L., Lan, T., **Xu, H.**, et al.
2022, *Nature communications*, 13(1), 1-8.

High-q silicon nitride drum resonators strongly coupled to gates
Zhou, X., Venkatachalam, S., Zhou, R., **Xu, H.**, et al.
2021, *Nano Letters*, 21(13), 5738-5744.

Supramolecular interactions of poly [(9, 9-dioctylfluorenyl-2, 7-diyl)-co-thiophene] with single-walled carbon nanotubes
Zhang, P., Yi, W., **Xu, H.**, et al.
2018, *Nanotechnology Reviews*, 7(6), 487-495.

TECHNICAL SKILLS

Developer Languages: C/C++, Python, Jupyter notebook
Developer Libraries: Matplotlib, Numpy, Pandas
Developer Tools: Maple, LaTeX (Overleaf), Origin, Github (HTML/CSS/Markdown)
Languages: English (Fluent), French (Basic), Chinese mandarin (Native)
Hobbies: Full/semi- Marathon, Hiking, Guitar playing, 3ds Max painting etc
